

# BOLT MINI MODEL MOVER

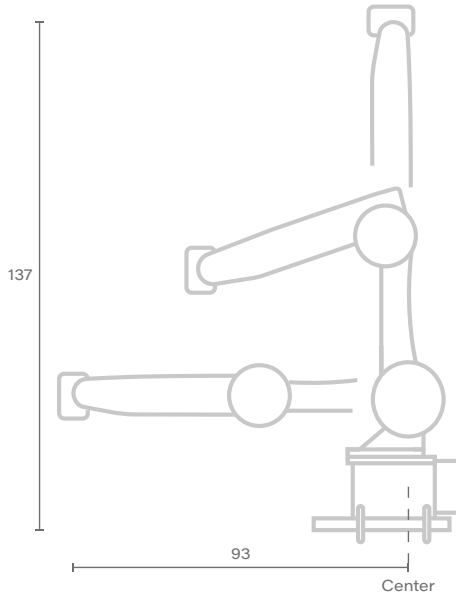

MOTION CONTROL – BOLT MINI MODEL MOVER CINEBOT

## BOLT MINI MODEL MOVER

The Bolt™ Mini Model Mover is an extremely versatile and lightweight 6-axis high-speed arm capable of moving products with precision, and can be used as a stand-alone system or synchronised with a Bolt X, thanks to the FLAIR programme control. The Mini Mover is designed to be quickly installed on a table or the floor, transported already assembled in a compact flight case, equipped with different attachments for every set requirement.
