

STABILISED HEADS – FILMOTECHNIC

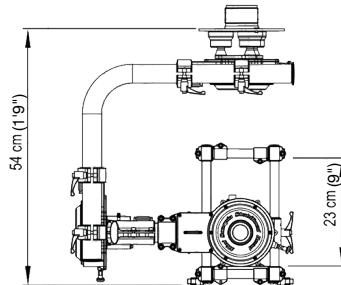

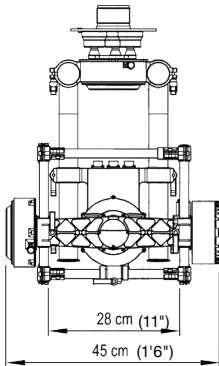

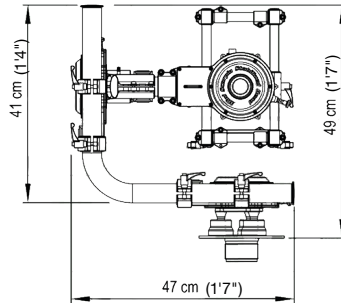

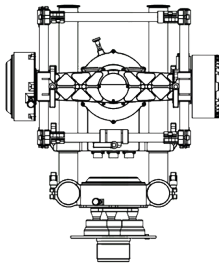

MINI SCORPIO V

Mini Flight Head is a 2-axis gyro-stabilised head, made entirely of carbon fibre, it is the smallest and lightest stabilised head around. Mini Flight Head is suitable for any mount, it can be mounted on mounts such as Steadicam or crane and dolly as well as on special mounts such as the Russian Arm Mini, it also allows repetition of movements.

TECHNICAL DATA

Stabilisation	2 gyro-stabilised axes
Max. range	25 kg
Field of View	Pan: 360°
Date / Communication	Tilt: 200°
WeightPower supply	Roll: 270° [automatic horizon]
Working environment conditions	Max. speed Pan/Tilt-Roll: 2s/rev
Condizioni ambientali di lavoro	RS485 or Wireless
	20 kg
	24 - 35 V

Unit of measurement - centimetres [cm]
