

VIRTUS 10

VIRTUAL SOLUTION SYSTEM

VIRTUAL SYSTEM

VIRTUS 10

**It interfaces all shooting systems with the most modern
Augmented Reality and Virtual Set software**

READY FOR EVERYTHING

Designed to use all remote and manual shooting systems, sending the trigonometric position for any video resolution.

Fluid heads

Remote heads 2 axes

Telescopic lift

Floor, aerial or wall motorized dolly

Telescopic or modular crane

SIMPLE TO SET

It easily adapts to any virtual machine by processing all protocols.

CUSTOM on demand
